

KENDIX

ZINK 00

Description

Zink is an in-between curtain fabric with a unique woven-in yarn that provides a reflective backing. Because of the special yarn, it allows for regulating daylight in the room, enabling you to create a pleasant indoor climate. This innovative fabric has a pleasantly soft feel, making it very suitable in a residential setting.

The amount of light the curtain lets through depends on the opening factor, the type of yarn and the colour of the fabric itself. The colour white has the highest reflective capacity. The shiny yarn on the back contributes to the increased reflective value.

Specifications

Part ID	0106380000
Composition	75% recycled polyester flame retardant, 25% polyester flame retardant
Width (cm)	300 cm
Weight (g/m1)	312 g/m1
Lightfastness (scale 1-8)	5
Flameretardant	Yes
Certifications	OEKOTEX
Color variants	5
Shrinkage (%)	1%
Roman blind suitable	Yes

Washing instructions

Industrial washing instructions

Does not apply.
