

## JADE 46

### Description

---

Imagine stone and minerals weaving their way through the fabric that we call Jade. This mixed structure is an ode to materials, specifically rocks and gems. Gems are synonymous with the rich and therefore have an ancient glamorous attraction. Jade features a softly glowing thread, woven into the fabric.

### Specifications

---

|                          |                                       |
|--------------------------|---------------------------------------|
| Part ID                  | 0105700046                            |
| Composition              | 48% polyester, 35% linen, 17% viscose |
| Width (cm)               | 300 cm                                |
